-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply.

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 17-40 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on February 3, 2005.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reim, U. S. Patent 4,212,122 in view of Vogeles, U. S. Patent 3,918,187. Reim teaches picture frame assembly for a picture 8 to be displayed comprising a retaining panel 11 and a rear panel 10, wherein the retaining panel 11 is spaced from a part of the rear panel 10 to define a space there between for receiving a picture 8, transparent panel 7, and compressible insert 9 to be displayed. The retaining panel has a transparent central portion/opening for viewing the picture 40. In addition,

the retaining panel 11 has a substantially planar 13 defining a plurality of edges and retaining members 14 arranged on all of the edges, with only one retaining members situated on each edge. The retaining members 14 each extending along the entire edge portion of each edge, wherein each retaining member includes an extension portion 14 extending rearward relative to the substantially planar portion and a projecting ridge 16 formed on the extension portion and extending inwardly. The peripheral edges of the rear panel 10 being arranged to fit between the ridges 16 and a rear surface of the retaining panel.

4. Reim teaches the claim invention except for the transparent area for viewing the picture.

5. Vogle teaches a picture frame 10 comprising a frame 12 having a central opening with a transparent member 32 welded to the frame and a backing member 14. The frame 12 has retaining members 30a, 30b, and 28 extending from the frame member and adhesive pad 42 for mounting the frame upon a vertical surface. It would have been obvious to one having ordinary skill in the art at the time this invention was made to provide a means to view the picture mounted therein as well as protect the picture for damage.

Allowable Subject Matter

6. Claims 1-16 and 42-45 are allowed.

Response to Arguments

7. Applicant's arguments with respect to claims 41 have been considered but are moot in view of the new ground(s) of rejection.
